

Family Hubs

February 2026

Opening

The Family Hubs were invited to come to the SEND Summit and have a stall during the lunch break. We had presented last year to tell everyone about our SEND Coordinators, and it was great to be part of the Summit again.

Opportunity

We knew there would be lots of young people at the event, so we wanted to talk to as many of them as we could!

We asked young people what they thought about some of our ideas for the Family Hubs.

They used green, orange and red stickers to show us how they felt. Most people used green stickers, which means they liked our ideas! For example, they liked ideas like “helping parents and carers get the right support” and “helping schools and colleges.”

Young people also shared their own ideas, such as having more groups where they can meet other young people.

Outcome

A lot of our work is with parents and carers, but we know we need to do more to help children and young people understand what we do.

We would love to set up groups for young people. One of our jobs is also to find out what groups, clubs, and support are already available in your community, and to make sure families know about them.

After the Summit, we will work with young people and families to create information about Family Hubs that is especially for young people.

Obligation
