

## You Said We Did

**Consultation Title:** Supporting Young People to access social activities

**Date of Consultation:** March 2021

**What did you consult on:** What would need to be in place for a young person to return social activities and what does this mean for the parent(s)

**Number of response received:** 3

You Said	We Did
Safe environment, small groups ideally meeting outside	When our social groups return to face to face activities, these will be in a clean C19 safe space or outside weather dependent
Substantial activity length to provide parents/carers a reasonable length of time to rest, exercise, spend with other siblings	Social groups when meeting face to face are a minimum of 2 hours but are often longer
Activities are fun and enjoyed by the YP	All social group activities are chosen by the YP themselves, are varied and new activities are encouraged with the right levels of support in place for those attending
Staff that understand my YP and provide the care they need	All staff are experienced and trained. They receive ongoing supervisions, training and support. Safer recruitment practiced for both paid staff and volunteers. Individual care plans are considered and supported fully by working together with the YP, families/carers from the beginning. As much information as possible is given out in advance via 6 weekly programmes and weekly reminder messages
